

# Instruction Manual

## Warning:

Please read and follow these instructions before installation.

- For indoor use only.
- This Device is not intended for use with emergency exit fixtures or emergency exit lights.
- Do not use with dimmers.
- Not for use where exposed to the elements.
- Not for use in totally enclosed luminaires.
- Risk of electric shock - Use in dry location only.
- Switch off power before installation.
- Hands must be dry during installation.
- When replacing LED lamp, beware of electric shock and the heat that has accumulated.
- If failure occurs do not attempt to repair product.
- Added weight of the device may cause instability of a freestanding portable lamp.
- Use only with portable table lamps in which the distance from the bottom of the base to the top of the lamp holder does not exceed three times the minimum base width.
- Use only with portable table lamps which are fitted with lamp shades.

## FCC Instruction:

This device complies with the Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NIMB-003 du Canada.

Patent Pending

Made in China

## Specification: 110-120V / 60Hz

**Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Adjust or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
